

2. ScreenShot for Metric Conversion Assistant

The screenshot shows a window titled "Metric Conversion Assistant" with a light blue background. The window contains eight input fields arranged in two columns. The left column contains "Mile:", "Pound:", "Gallon:", and "Fahrenheit:". The right column contains "Kilometer:", "Kilogram:", "Litre:", and "Centigrade:". Each label is followed by a text input field containing a numerical value. At the bottom center of the window is a button labeled "Convert".

Unit	Value
Mile:	100.0
Kilometer:	160.0
Pound:	102.0
Kilogram:	45.9
Gallon:	50.0
Litre:	189.25
Fahrenheit:	37.0
Centigrade:	2.77
